Invitation to the 2027 Hymenoptera Conference

January 30, 2027

Dear Colleagues,

We are pleased to invite you to the next **Hymenoptera Conference on January 30, 2027**, at the Natural History Museum in Bern. A special highlight of our conference will be the keynote lecture by **Dr. Brendon Boudinot** (Senckenberg Research Institute and Natural History Museum, Frankfurt). As a leading ant expert, he will provide fascinating insights into the diversity of Germany's ant fauna: "**The Ants of Germany: Species Distribution Modeling for Conservation and Ecology.**"

In addition to the keynote presentation, we are looking forward to an exciting program featuring **numerous talks (10 or 20 minutes)** and **poster presentations**. We would also like to use the upcoming conference as an opportunity to discuss potential new formats with you, such as an additional workshop the day after the conference.

We are very much looking forward to an exciting conference

Christophe, Jessica, Seraina und Manuela
